ASS - Approximate sample size: This is the sample that you would typically expect for this demographic group, based on targeted installed numbers in the panel and assuming in-tab rates of 90% or more. However, the actual sample size will vary due to such factors as storms and power failures (more homes may fault) and holiday periods (when it is more difficult to contact homes to either restore faults or to recruit new homes).

\* Homes with Subscription TV (STU or IDS-Only) within Metro (Syd, Mel, Bri, Ade, Per) & Regional (QLD, NNSW, SNSW, VIC and TAS) markets. Overlap homes are counted only once.

ASS - Approximate Sample Size: This is the sample that you would typically expect for this demographic group, based on targeted installed numbers in the panel and assuming in-tab rates of 90% or more. However, the actual sample size will vary due to such factors as storms and power failures (more homes may fault) and holiday periods (when it is more difficult to contact homes to either restore faults or to recruit new homes).
